

drinks

As with food, every customer has their own requirements for the drinks they wish to offer to their guests. Therefore, we provide tailored packages to suit your requirements and are happy to recommend to you what we feel would meet your event needs.

Some options to consider could be hourly packages with soft drinks only through to a full bar service, or a package based on drinks consumed. Please feel free to discuss your requirements with us.

What can we provide?

Beer

- We work with all the local beer companies and can therefore provide all services from bottles to draught at any location.
- We work with most of the large & small beer importers and can arrange to source from any country with the style/s that you require. This is subject to the importers availability of the product and lead time for ordering.

Wine

- We work with a very large number of wine distributors and can source wines from all over the world depending on your requirements and budget.
- Have a particular brand or varietal that you would like? Let us know and we will do our best to source it for you.

Spirits

- We also work with all the spirit importers & distributors, both large and small, so can source any of your favourite local & international spirits & mixers to make your event an extra special one.

Non-Alcoholic

- Drinks packages can range from water only through to sodas, cold press juices, smoothies, mocktails and tea & coffee.
